There is a concern about survival of stocked walleye in our lakes. The fish manager for our area, Eric Wegleitner, has indicated that our lakes will not be stocked. It would be possible to obtain stocking of walleye and/or musky through a private source. At this time, the walleye population is down with largemouth bass being more prevalent.

B. Water Level/Quality/Shoreland Improvement Initiative:

Tony Waisbrot reported that our lakes are healthy and the clarity is good. There has been a 5.9" drop in water level from spring to the present time. Mark Wegge reported that Secci disc readings for Alma for June were 11' and 7.5' for July. Readings were 14' for June and 13' for July for Moon.

C. Website: Sue Zauner reported that the website continues to be available. She is working on posting charts of Secci disc readings.

D Newsletter Report: Tony Waisbrot reports that the money available for newsletters will be used to send notices as needed.

G. Social Committee Report:

Twenty-five lake residents attended and enjoyed the event. The social event for next year will also be held at the Red, White and Brew. The date has not yet been set.

H. Loon Ranger and Eagle Report:

Pam Larsen reported that ice out occurred in April and the loons arrived on April 19. On May, 16, the loons were observed to be nesting. Approximately two weeks later they abandoned their nest due to black flies. The eagles are nesting in their nest on the east side of the channel. Two eaglets have been seen.

VII. Unfinished Business:

A. Wake Enhancement Ordinance Update:

Tony Waisbrot reported that at present, there is no State Law regulating wake boats. There are several court cases in progress. A motion was made by Len Larsen that the AMLD Commissioners be encouraged to continue to pursue the possibility of AMLD instituting a ban on all wake enhanced boating activity on Alma and Moon Lakes. Karla Gern seconded the motion. The motion passed unanimously.
